Transolutions, Inc. Ranked as a Top 3 Medical Transcription Company by 2008 KLAS Report

Lake Bluff, Illinois. TRANSOLUTIONS, INC., a leading solutions provider in the medical transcription market place, announced today they have been ranked in the top three best-performing vendors in the Outsourced Medical Transcription category of the 2008 Top 20 Best in KLAS Awards Report. KLAS is an independent-research company that healthcare decision makers rely on for accurate, honest and impartial information on vendor performance. KLAS conducts surveys of healthcare executives and professionals within the client base of each Medical Transcription Service Organization (MTSO). The report reflects the aggregated opinions of actual customers, comparing MTSO performance against participant objectives and expectations. Transolutions is very proud to be so highly ranked in only its first year of qualifying for the award.

“As economic conditions become more challenging, healthcare providers are under tremendous pressure to make every investment – and every dollar – count,” said KLAS President Adam Gale. “The Best in KLAS awards were created to help providers make smart buying decisions, allowing them to cut through the hype to identify companies, products and services that are the best-performing in the healthcare industry. The 2008 Best in KLAS honorees represent a select group of healthcare software and services vendors that have demonstrated leadership in working with customers to resolve issues and match expectations to reality.”

“We are honored to be ranked as a top three provider in our industry by such a reputable organization as KLAS. This recognition is a testament to all of the Transolutions team members that provide the highest quality service to our customers everyday. We will continue to strive to give world class service and offer innovative technologies that will help our customers manage their workflow and decrease documentation costs,” stated Michael Carnrite, President of Transolutions. “This ranking affirms our customer-centric business model and is a nice way for us to start 2009.”

About Transolutions:
